Chapter One - Your Ascendant: Appearance and Persona

AS in 69

Cancer Rising

You have a caring and receptive aura, and look for or act naturally as a mother figure. In fact, mother complexes are common with this Ascendant; it is important to establish whether or not such strong ties with your mother - and with your family in general - are entirely healthy.

If you are male, you often play down this caring and intensely personal sense by developing a shell by hiding behind political rationale and conventional social behaviour (and females can also be prone to this ploy), or by building a tough macho body. Because yours is a very personal and soft approach, it therefore feels easy to approach you. But this can be quite deceptive because there is that shell protecting the source of your vulnerable softness.

So you like being close - but not too close. Cancer Rising has been described as the "Emotional Waste Paper Basket", for you can be "dumped upon" as a result of appearing too available emotionally. This may resemble a feeling of security through being needed, but some discrimination and increased sense of self-worth are eventually called for. Be that as it may, you do find your identity through responding to the needs of others as well as your own.

Crab-like, you approach matters and people in a sideways, indirect fashion. This can be very consoling to someone who needs to be dealt with in such a softly-softly fashion. But you tend to attract relationships where emotionally sticky issues need confronting in a more direct, objective, matter-of-fact way.

The Moon is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Three - Your Moon Profile, with this in mind.

Chapter Two - Your Sun Profile: Your Will and Purpose

☉ in ♌

Sun in Leo

Your essential purpose in life is to bring warmth, light and vitality to whatever you regard as important. Thus you generate more brightness and creativity. In order to achieve this, you have a radiance, an inner glow, that quite magically draws the attention of others. This same quality then lends an air of certainty to whatever it is that you have involved yourself with. What could be called your royal seal of approval bestows a confidence upon whomever or whatever meets with your favour.

The trouble is that your curse is as disastrous as your blessing is great. And the curse of Leo is, of course, pride. Your pride makes you vulnerable to being taken in vain, and when you feel taken in vain, your bright sun goes behind a dark cloud. Some Leos are even born with their sun behind that cloud. And when it comes out again, you are very wary of having your pride wounded again, and anything that alludes to this - like advice or criticism - you disdainfully ignore or patronisingly put in its place.

However, when you are the Leo who does put your pride aside, and realises that the sun cannot see its own shadows and so gracefully accepts constructive advice or criticism, you become like the Sun itself - utterly inextinguishable, ever-giving and ever-warm, funny and romantic, the noble ruler, the creative teacher - the healing heart. You, of all Signs, have the Light. All you need do is shine.

☉ in 2nd House

Sun in the Second House

All of this is most likely to centre upon what you regard as being of true worth. So anything that you put your vital energies into has to have a very real and material value. You could simply translate this into accumulating plenty of money and property, and for as long as you truly regard this as important, then that is what you are able to do.

But at some point it is no longer as simple as that, for the issue becomes one of establishing what YOU are worth, and what it is that you have, know or believe in that you must prove to be of worth in the material world. How much money you have or don't have is really only an indicator of what you believe it, and therefore yourself, to be worth.

Your Sun Aspects

☉ ♀♂ ★★☆☆☆

Sun uniting with Mars

You have quite a strong and resilient nature. You are built for action, and as a rule you have no trouble getting on with the job in hand. You are decisive, forthright and competitive, and other people pick up on this and respond to it - although not necessarily that favourably. You need to know what you want, otherwise what could be a mixture of desire and aimlessness or sheer wilfulness will create far more enemies than allies. Bear in mind that your undeniable drive and energy is ultimately only as good as what you are directing it towards. Your primary requirement is finding a worthwhile cause to promote.

Sun allying with Jupiter

There is a supremely positive dimension to your personality that bestows both wisdom and good luck upon you. You have an essentially benign and philosophical nature that attracts funds and opportunities, help just when you need it, and people in foreign parts who are well-disposed towards you. The paradox is that because you can so easily conceive of an easier life, you tend to let negative matters build up to a point where you then have to use your luck in earnest.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A BAREBACK RIDER" - A deep and natural connection with Nature's forces that spontaneously gives rise to special skills and dramatic displays. **Keyword: BOLDNESS.** When positive, your enviable knack for keeping in touch with the most basic of life's laws, particularly with regard to the more wild, untamed elements of living things. When negative, a rough and readiness that plays to the crowd's need for raw sensationalism.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses**Moon in Scorpio**

Your reigning need is to feel close to someone or something. In order to satisfy this need, you have a profoundly intuitive sense of the emotional nature of people and situations. The trouble for you is that your need for closeness is compulsive, and so you can feel lonely or abandoned only too easily.

And then your intuitive sense becomes a radar that picks up anything which bears the slightest suggestion of abandonment or threat towards your vulnerable emotions. The mistake you are making is that you are interpreting others' negative emotional states as being aimed specifically at you. It is then only a matter of time before such paranoid behaviour does actually attract a negative attitude or act towards you. So you need to identify how and where in your past you initially felt betrayed or abandoned, and exorcise that demon.

Until then you will either be haunted by a fear of being alone, or you will find yourself in solitary confinement. Having overcome what must be the oldest human fear, that of abandonment - or at least, when you're not feeling threatened by it - you have an emotional perception of others that is accurate to the point of being deeply reassuring. At your best, you can make personal sacrifices for the good of the whole.

**Moon in the Fourth House**

Whatever your feelings or needs, you instinctively know how to protect and feed them. In fact, you are a natural homemaker. You exude a home-from-home, hearthside familiar atmosphere. This fosters all domestic and catering talents, be it on a professional or amateur basis. You also have a closeness to Nature. A feel for flora and fauna is in your blood, and you could have green fingers. You can, however, be overly attached to your roots - never leaving the region, or even home, you were born in.

This could amount to a security-blanket syndrome where certain habits and things are clung to - especially in times of stress and unpredictability. Your feelings may be more or less totally bound up or invested in your actual home or family, so that you do not readily express them in external social intercourse. If you are this extremely homely type, then as long as you're happy keeping the home-fires burning, that's fine. But if you are just cooped up on your own, learn to share or express your inner nature.

Your Moon Aspects

Moon challenged by Mercury

You have a pressing need to communicate or rationalise these feelings. This is a good thing inasmuch as it enables you to understand how you and others tick, and consequently to interact readily with them. But when you overdo this you can lose touch with your feelings on their own level. Yet if you don't think about how you feel - or again think about it too much - then your feelings prevent you from thinking straight. Either case can also incline you to chatter on as a kind of verbal overflow for your unfelt feelings.

Obviously you need to find a balance between thinking and feeling, and between talking and listening. Merely going out and doing something can shift you into a clearer perspective.

Moon allying with Venus

What comes to the rescue in all your emotional interactions is a certain softness that you have about you - whether you are male or female. Others find it easy to bathe in your pleasingly familiar aura. This talent of yours for soothing and making people feel good has many uses and can take many forms.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"A MASSIVE, ROCKY SHORE" - Nature's way of protecting her boundaries between one element and another. **Keyword: DEMARCATION.** When positive, the reassurance that you gain from accepting your limitations, and the wondrous impressions you can give from knowing your own ground. When negative, an inaccessibility to yourself and to others of all that is valuable.

Chapter Four - Your Midheaven Profile: Career and Status

MC in X

Pisces at the Midheaven

Pisces is open to many interpretations and can come in many disguises. Because of this your professional life is hard to identify unless you have already focussed upon one of the more typical careers of this Sign - music, dance, healing, chemistry, cosmetics, visual art or anything that is mystical or glamorous, or has to do with the sea.

You can lose your career-path through being undone and side tracked by drugs or alcohol or 'wool gathering' generally. On the other hand your public position may be involved in dealing with or in these issues.

Generally speaking, Pisces here poses careers that have to do with enlightening (art and entertainment) or relieving (medicine and healing). Also, something which involves compassion and reaches out to the suffering masses: the caring professions.

The House and Aspects of Neptune in your Chart (see Chapter 11) will give further and possibly more precise clues as to the nature of your career and public position. For example, Neptune in the Fourth House could mean working from home, or in a home, i.e. institution. Hard Aspects to Neptune would indicate difficulties and confusion in finding or keeping a position; too many Soft Aspects could mean laziness and a lack of objectives. A balance of Hard and Soft Aspects is most favourable with slippery Neptune.

Chapter Five - Your Mercury Profile: Perception and Mentality

♃ in ♌

Mercury in Leo

Yours is a creative mind, a mind that likes to play and thereby come up with creative ideas. Consequently you can be known for your distinctive and humorous verbal style. You identify strongly with the way you think and take pride in doing so. The price that you pay for such a vital mentality is that of either overplaying or underplaying your hand; the reason being that you are frightened of not making a big enough impression or of looking ridiculous. In the end, you have to have the courage to put your money where your mouth is - and rely upon your undeniably bright mind to pick up the mental thread should you lose it.

♃ in 2nd House

Mercury in the Second House

These mental qualities of yours are a major material asset, or a major liability. So it is important to get the best out of them and eliminate their weaknesses. The soundness of your mind greatly determines your income, and the nature of your mind has much to do with what you do to earn that income. You may even work at something to do with finances. You prefer to concern yourself with practical issues - or you are forced to by circumstances. You are often fascinated by the small details of the physical world. It is as if by making such a contact you feel in touch with everything.

Your Mercury Aspects

♃ ☐ ☾ ★★☆☆☆

Mercury challenged by Moon

It is not easy for you to divorce your thoughts from your feelings. Trying to do so merely attracts emotional types whose irrationality drives you mad. The more you cling to reason, the less reasonable things become. Or else it could be that your own unresolved emotional issues are getting in the way of clear thinking. Once you have given your feelings their due and dealt with them accordingly (as described in your Moon Profile) your mental powers are released and increased.

Chapter Six - Your Venus Profile: Attraction and Harmony♀ in 6⁹**Venus in Cancer**

For you, love is bound up inextricably with security; affection cannot exist without care. There has to be something traditional and familiar about your partner, a feeling of belonging, an involvement with and acceptance of their family and your own. The love that was or was not forthcoming from your mother greatly affects how much you show and need affection.

Being unsure of mother-love would incline you to cling blindly to a partner. Your sympathetic and tender style of loving should not be under-rated - go on strike if it is, and they will soon come running! On the other hand, beware of your tendency to behave in a sulky manner when reactions to past hurts are triggered by normal emotional confrontations, for this can hatch a game of cat and mouse which is the last thing that you need. You express love and beauty best in a homely, private way.

♀ in 12th House

Venus in the Twelfth House

Ultimately, these qualities and senses are discovered, and your needs for love and beauty are satisfied, through some form of confinement or withdrawal. This is because these aspects of your being are highly complex, subtle and quite soulful. As such they need peace and quiet to be developed - rather like exotic blooms in a hothouse. Furthermore, when you have contacted your inner beauty and love of yourself in this way - which very possibly should involve some kind of artistic pursuit - an external relationship becomes more viable and rewarding.

Whether you find yourself in this retreat from the "normal" world voluntarily or otherwise, you need to recognize that being there is in aid of you contacting that indefinable, and very sensitive quality that lies deep within. Merely escaping from the world is liable to result in feeling lonely, cut-off, and being regarded as a bit peculiar. Alternatively, this attraction to keeping your sensitive self hidden away, may become externalised by falling for someone who is unavailable in some way. Consequently, such a relationship also has to take place in secret or in stolen moments.

Your Venus Aspects

♀ △ ☾ ★★☆☆☆

Venus allying with Moon

You have an instinctive ability to satisfy these needs and senses. You have an attractive personality - at least, on one level of your being. You are also very accommodating of others, and expect to be equally welcomed yourself.

♀ □ ♃ ★★☆☆☆

Venus challenged by Uranus

All these social or moral values of yours are going through great changes. Perhaps you are even rebelling against them. It would appear that you have an unstable attitude in this respect as you jump from one relationship to another. You are divorce prone. What lies behind your excitement seeking and unpredictability is your restless quest for a set of values for the future, and a social scene and love life to match. Artistically, you are drawn to the avant-garde.

♀ □ ♃ ★★☆☆☆

Venus challenged by Pluto

At a very deep level your whole idea of what love is and is not is having to go through a major process of transformation. Your love nature, as described above, has taken on the task of bringing into the light the most fearsome, ugly and taboo-ridden aspects of human nature - in yourself and others. This is challenging indeed, and it is therefore not surprising that your love life is cratered with crises of no mean magnitude. Can you still love in the face of death; be it the death of a cherished ideal, a social norm, or of love or a loved one?

♀ ♂ AS ★★★★★

Venus uniting with your Ascendant

These qualities of love and beauty also express themselves in your actual physical presence, appearance or manner of expression. You are either lovely to look at or pleasant to be with - or both. If you are the former, your looks could take you far in one respect, but hold you back in another, simply because you haven't had to do anything other than just be there. This can be very much the case if you are a female who is past her prime. Essentially you have the great asset of being attractive - which is just that, i.e. others are drawn to you. If you have some inner quality to deliver too, then you have the best of both worlds. Your art is the way you are.

Chapter Seven - Your Mars Profile: Self-Assertion and Sexual Drive

♂ in ♍

Mars in Virgo

You assert yourself best when you have learned and use some sort of technique. Then whatever you do, you do with thoroughness and precision. You are very exacting of others in their work - and sexually too - and you like to keep the score. You know how to hit the right spot, but make a fuss if your opposite number doesn't.

In effect, you have given yourself quite a tall order of satisfying your desires and your need for purity at the same time. This can mean that you put yourself out of the running altogether for a time - or work yourself into the ground trying to achieve perfection. If you allow yourself to become neurotic about this, your health could suffer. So relax and stop driving yourself to do the impossible when your best will more than suffice.

♂ in 3rd House

Mars in the Third House

Most or all of this applies especially to your manner of speech or literary expression, your everyday encounters, giving or receiving education, and your relationships with siblings. You could say that these areas are the battleground of your life. Your Mars Aspects below will reveal how easy or difficult that battle is. Ultimately, you should be a strong voice, which is heard above others'.

Your Mars Aspects

♂ ♀ ☉ ★★☆☆☆

Mars uniting with Sun

Because you have a sharp and forceful personality, you progressively become more and more conscious of the pros and cons of this situation. You keep pushing on, no matter what. Consequently, you are eventually able to win over others to your cause. This support, and the ability to make considerable headway in life, is also owing to the fact that you have the courage of your convictions.

♂ ♃ ♁ ★★★★★

Mars allying with Jupiter

With you, once an objective has been decided upon, you reach it with speed and enthusiasm. You have an amazing ability to mobilize your forces. Furthermore, once up and running, all manner of eventualities arise as if to confirm or further your good intentions. Indeed, it is because you are forthright and honest in your actions that you attract good fortune whenever you do act consciously.

♂ □ ♃ ★★★★★☆

Mars challenged by Neptune

All of these qualities concerning your manner of self-assertion and sexual expression are going through a process of refinement and alignment with your spirituality. This means that whenever you are pushing for the wrong thing or for the wrong reason, your energies become depleted or become ineffective. Ultimately, your body is only willing if your spirit is. When or wherever it is so, you are very charismatic and can heal others or draw them towards higher and better things.

Creative or selfless pursuits can galvanize you when all else fails to do so. But this mixture of sexuality and mysteriousness, which pervades your personality can lead you and others up many a confusing - yet tantalising - garden path before you realise what is and what is not desirable. You have a sensitive body, so subtle exercises, like yoga, Tai-Chi and water sports, are more favourable to your well-being than harsher exercises. For similar reasons, you can react badly to drugs or alcohol.

Chapter Eight - Your Jupiter Profile: Faith and Understanding

♃ in ♈

Jupiter in Sagittarius

Faith comes naturally to you in that you are basically aware that there is a rhyme and a reason to it all. Consequently, philosophy and mental abstraction is a strong suit of yours. Whatever else your personality might contain, you believe in something, to one degree or another, that goes beyond what is intellectually definable.

Because you have this innate faith that life is going somewhere, life in turn encourages you to travel on, and sometimes even grants you a prophetic glimpse around the bend in the road. Providing that you do not dwell too much in pure and abstract theory, you make a good guide or teacher.

♃ in 6th House

Jupiter in the Sixth House

These qualities of faith and understanding become critical issues with regard to health and work. Generally speaking, you are an enthusiastic worker and have a sound constitution to match. You may also be actively involved in healthcare or improving work methods and conditions, in the manner of your Jupiter Sign.

What you have to watch out for mainly is overworking or being overly concerned about getting it right - for this in itself can lead to health trouble. Nevertheless, your recovery rate is good, probably through mind-over-matter methods.

Your Jupiter Aspects

♃ △ ☉ ★★☆☆☆

Jupiter allying with Sun

By and large, you fall into the positive category with respect to your faith in life and the luck that it attracts. There is a danger of your taking it for granted, simply because it comes so naturally. All the same, your beliefs are the mainstay of your existence and vitality, and others can learn much from them.

♃ △ ♂ ★★★★★

Jupiter allying with Mars

In fact, there is something of the evangelist in you, for you promote your beliefs with some zeal. And neither are you an armchair philosopher. You don't just pontificate, but act and live out your beliefs. You are a crusader.

♃ □ ♃ ★★★★★

Jupiter challenged by Pluto

At the bottom of all of this lies your desire to have a set of beliefs that accommodates and guides your deepest drives and fears. So it is very likely that at some stage you came, or will come, into collision with whatever moral or religious influences prevail in your life. Sooner or later you embody, and have to overcome, some religious or cultural taboo - possibly concerning sex.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♊

Saturn in Gemini

You are learning to ascribe the right value to logical thought. Considering that rational thinking has been dominating our society for the last few hundred years, you have to be extra careful how you do this. Either you are the type that virtually worships the intellect, with everything in life having to have a logical explanation, or, you feel hampered by not being able to reason things through, and can wind up being actually anti-intellectual.

So eventually you either find that you get confronted by a situation that defies logic, in which case you will need to get in touch with what your feelings and intuition are trying to tell you. Or you might be confronted by a situation that you cannot feel or bluff your way through and so you just have to work it out logically, or get down to some studying.

♄ in 12th House

Saturn in the Twelfth House

None of this comes to you at all easily; nor perhaps does the establishing of a material position in life. It is as if you are first having to make amends for past misdeeds which are reflected as anything negative in your Saturn Profile, which may simply mean failing to act upon it, or that you have never felt enough sense of personal authority to achieve.

So you have to go downwards and inwards in order to discover what lies hidden deep within you that makes you feel as if you've got a monkey on your back. This plumbing of your depths, this contacting and obeying your conscience is essential. Either you achieve it voluntarily through meditation, psychotherapy or creative work, or, you are driven to confronting yourself through some other form of confinement or solitude. The inner stability that you can eventually attain through these means is complete and permanent, for you will have vanquished the most powerful demon of all - the demon within.

Your Saturn Aspects

♄ △ ♅ ★★★★★☆

Saturn allying with Uranus

You stand to alleviate any problems here, both for yourself and for others. You do this through your inventive streak, which employs original means and ideas, or the latest technological, metaphysical or psychological methods. Being flexible and up-to-date are useful assets of yours.

♄ □ MC ★★★★★★

Saturn challenging your Midheaven

To add to all this, you have your work cut out in making sure that both private and professional commitments are equally maintained. As a negative role model, one or both of your parents is or was probably very bad at this. Apparently it takes you longer than others to get anywhere, but when you do you stay there.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

♅ in ♎

Uranus in Libra

You belong to a generation (born during the late 1960's to mid 1970's) whose intention was to reform attitudes towards Marriage, relating and social conduct in general. If you have a strong degree of social conscience, you will want to find some way of changing the laws and principles that guide and govern the people. Your generation is alive to the fact - or can be easily awakened to it - that a single powerful idea can change the face of society, or even the world.

♅ in 4th House

Uranus in the Fourth House

Your urge for change and awakening is most likely to manifest itself as upheavals or something out of the ordinary on your domestic scene, in your background, or in your relationship with your father. With regard to these situations, you find that you have to adopt an unconventional or even breakaway attitude. You may at times experience feelings of being uprooted or of being rootless. Your father might appear to have disowned you.

The intention behind this, or any other such feeling of being disinherited, is that you re-establish your right to be here - on your own, more consciously conceived, terms. You may find that all of this entails moving home more than average, or of occasional chaos within the home and family. In your home itself, you like to have freedom of movement and not be too tied to it. This is one reason why you may like labour-saving electronic gadgetry. Your home is a testament to the uniqueness of your life-style.

Your Uranus Aspects

♅ ☐ ♀ ★★☆☆☆

Uranus challenged by Venus

You are greatly attracted by the call to freedom, innovation and experimentation where interpersonal relationships are concerned. You may well have been first introduced to the new and alternative by a partner, and/or, you are keen to introduce the same to mates or society in general. Your relationships and morals (or apparent lack of them) may shock others - for better or worse.

♅ △ ♄ ★★★★★☆

Uranus allying with Saturn

As your life progresses, you come to learn that a dash of prudence or convention serves to further your more alternative interests. Or conversely, you come to appreciate that a spot of the unusual or idealism makes tasks and duties easier or more acceptable. You have a sense of how the old can blend with the new.

♃ □ AS ★★☆☆☆

Uranus challenging your Ascendant

Your desire for freedom is such that it makes it difficult for anyone to elate to you in a consistent fashion. You do what you want to do when you want to, and this is unlikely to keep a regular guy or girl for long. If this free-wheeling style suits you, then well and good, and you are electrically stimulating company. But for a stable relationship, you'd need to be less intransigent.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

♆ in ♐

Neptune in Sagittarius

You belong to the Neptunian generation born between 1970 and the mid 1980's. As this generation came of age, confusion was experienced with regard to what is right or wrong. The underlying reason for this is a want of distinction between the Law of Man and the Law of God. In other words, this generation, and the time they are growing up in, has to contact a more spiritual and less material, yet at the same time practical, means of directing human morals and appetites. A real sense of the divine or the quantum, begins to emerge now.

♆ in 5th House

Neptune in the Fifth House

For you, such sensitivity and yearning for something finer is very suitably and exquisitely bound up with creative expression and romantic involvement. And so you are likely to attract and experience extremes of ecstasy and sorrow as your fertile imagination has a field-day placing lovers on pedestals or feverishly striving to express some beautiful vision artistically.

Indeed, the "Agony and the Ecstasy" are your constant companions, as they are for all romantic and creative souls. With affairs of the heart your inclination to glamorise the object of your affections can certainly set you up for a fall as soon as or later his or her darker, or more ordinary, side stabs through the rosy veil that you have cast over them.

Such great heights are bound to be followed by great lows - and then, if you're truly loving, there can be the sweetness of realising that your lover is even more loveable than before. Or passion could turn to compassion, the romantic into the platonic. You certainly ought to be artistically talented considering that yours is an artistic and poetic temperament, and your work will be constantly inspired and fed by the peaks and troughs created by your acute sensitivity and imagination.

If for some reason you do not practise some art form, then this has to be because of some unsympathetic figure or factor in your life which crushed your latent abilities. If this is the case, take up art as a hobby - for your imagination is too good to waste on mere daydreaming. If you have children, they are highly sensitive or imaginative.

What is more, you feel that you must act upon these finer feelings and subtle yearnings. So you can be impatient to reach some artificial high, make a sexual conquest, or save some siren-like figure, or to be saved or conquered by some hero.

Such sexual myth-making is both enthralling and confusing, but at times can find you impotent or frigid, chaste or kinky. However, it is through these miasmas that you find your own fascinating blend of desire and imagination.

You are helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

Chapter Twelve - Your Pluto Profile: Power and Transformation

♇ in ♎

Pluto in Libra

You are a member of the Plutonian generation (1971 - 1984) which grew up into a world where revolutionary changes began to take place with regard to marriage and social values. Being a child of a single parent family would be a typical example of your generation's social conditions.

In any event, you grew up in an atmosphere of great uncertainty as to what social justice and the social norm were. Essentially, you as a generation are re-writing the social rule-book, which unavoidably means being without, or refusing to observe, the old rule book.

Pluto in the Fourth House

Your area of power and transformation is your home, family and roots generally. If you are comfortable with your family or racial background, then you truly have deep roots and a firm sense of belonging. If however there are shadows cast across the path, which leads back into your past, then they could haunt you with feelings of statelessness and a profound inner loneliness.

Either the positive or negative qualities will be in evidence in your domestic situation. Someone in your life, most likely your father, went about in the time of your childhood in a similarly soul-torn state. But as a child you took it personally and now you feel that the ground could open up and swallow you if you don't keep yourself very much to yourself.

If you are to prevent what amounts to self-isolation from dominating your life - or someone from still dominating your domestic scene with a heavy presence (and that could be yourself!) - then it is imperative that you exorcise such a ghost. To do this you must delve and dig into your past history until you have found what is obsessing you, and what you cannot forgive in yourself or someone else, and then actually forgive them.

Once you have accomplished this, you at last will feel that you have a power-base, a home that is your castle - because it will have been built on the only foundation that will satisfy you: a deep feeling of being here on planet Earth.

These pressures to transform and reach a deeper sense of involvement with life are hampered by your possibly unconscious desire to keep the peace and lead a pleasant life-style. Ironically though, it is just these predilections that draw you to someone who changes your life for you. The issue is really one of your being challenged to use your grace and charm to facilitate that transformation. There is something darkly but beautifully compelling about you or anything that you have created. So rather than being afraid of what you might lose, concentrate on what you have to give.

A religious or self-righteous streak runs through these deeper feelings and compulsions. On the one hand this can make you a bit of a "hell-fire and damnation" type of moraliser. On the other hand, you make sure that your deepest desires are guided and tempered by ethical principles, which are equally deeply held.
